7th Grade Social Studies

About Mr. Shank

Mr. Shank teaches 7th Grade Social Studies at Humphreys Middle School. His course traces the human experience in the United States from pre-Columbian times through the Civil War, incorporating geography and economic, social, and political trends throughout.

Through map skills, primary and secondary sources, research projects, simulations, and discussion activities, Mr. Shank helps students see connections across time — and to their own lives today. Grades are posted weekly to Aspen Gradebook and assignments are managed through Google Classroom.

[About Mr. Shank](#)[DODEA Standards](#)[Student Work](#)[Schedule Meeting](#)

DODEA Social Studies Standards

This course aligns to the DoDEA Social Studies Standards for Grade 5. Below are the core standards addressed throughout the year.

Standard 1

History of the United States

Students use intellectual skills to demonstrate understanding of major ideas, eras, themes, developments, and turning points in the history of the United States.

Standard 2

History of the World

Students demonstrate understanding of major ideas, eras, themes, developments, and turning points in world history, examining the broad sweep of history from multiple perspectives.

Standard 3

Geography

Students demonstrate understanding of the geography of the interdependent world — local, national, and global — including the distribution of people, places, and environments over Earth's surface.

Standard 4

Economics

Students demonstrate understanding of how the United States and other societies develop economic systems to allocate scarce resources, and how economies solve the scarcity problem through market and nonmarket mechanisms.

Standard 5

Civics, Citizenship & Government

Students demonstrate understanding of the necessity for establishing governments, the U.S. Constitution, the basic civic values of American constitutional democracy, and the roles, rights, and responsibilities of citizenship.

7.1

Native Americans

The physical environment and natural resources of North America influenced the development of the first human settlements and the cultures of Native Americans. Native American societies varied across North America.

7.2

Colonial Developments

European exploration resulted in various interactions with Native Americans and in colonization. American colonies developed differently based on economic, social, and geographic factors. Colonial America had varied social structures under which not all people were treated equally.

7.3

American Independence

Growing tensions over political power and economic issues sparked a movement for independence from Great Britain, resulting in the American Revolution and the founding of the United States.
