

BLUEPRINT FOR A MASTERPIECE

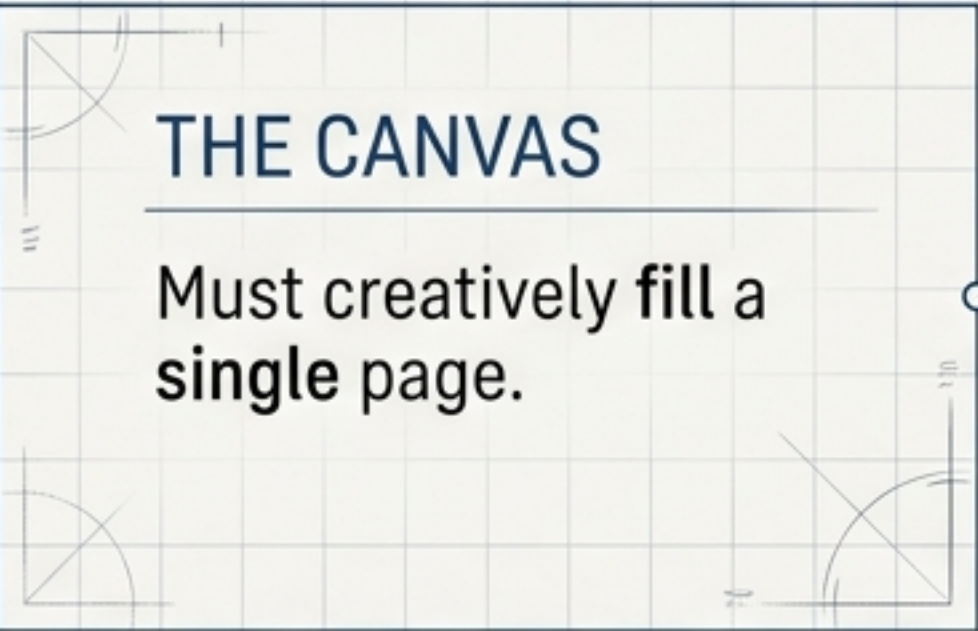

Designing Your American
Indian Tribe One-Pager

THE ANATOMY OF A ONE-PAGER

THE CANVAS

Must creatively fill a single page.

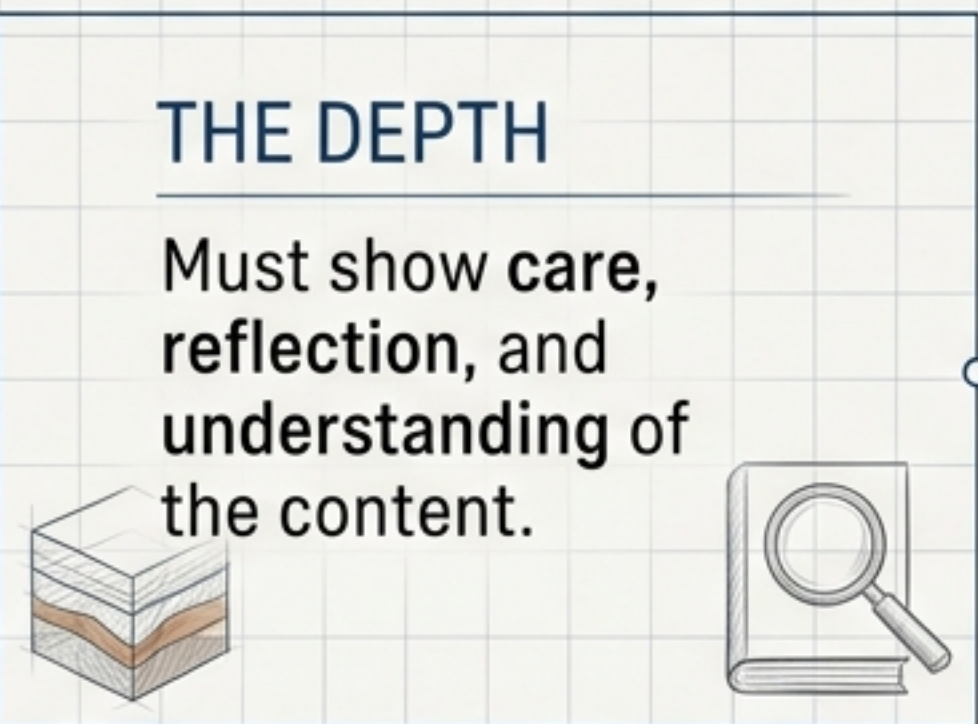

THE AESTHETIC

Must be neat, colorful, and visually deliberate.

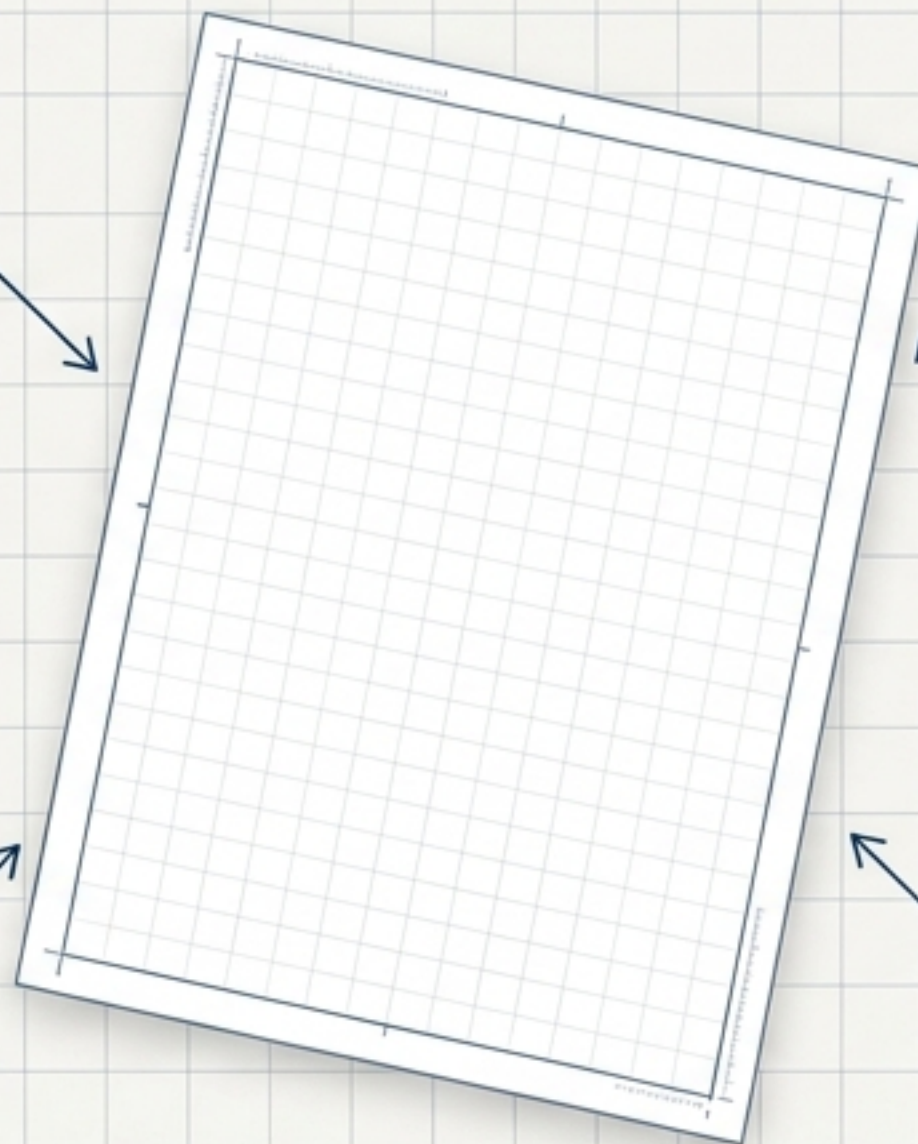

THE DEPTH

Must show care, reflection, and understanding of the content.

THE RESEARCH

Must synthesize information from multiple reputable sources.

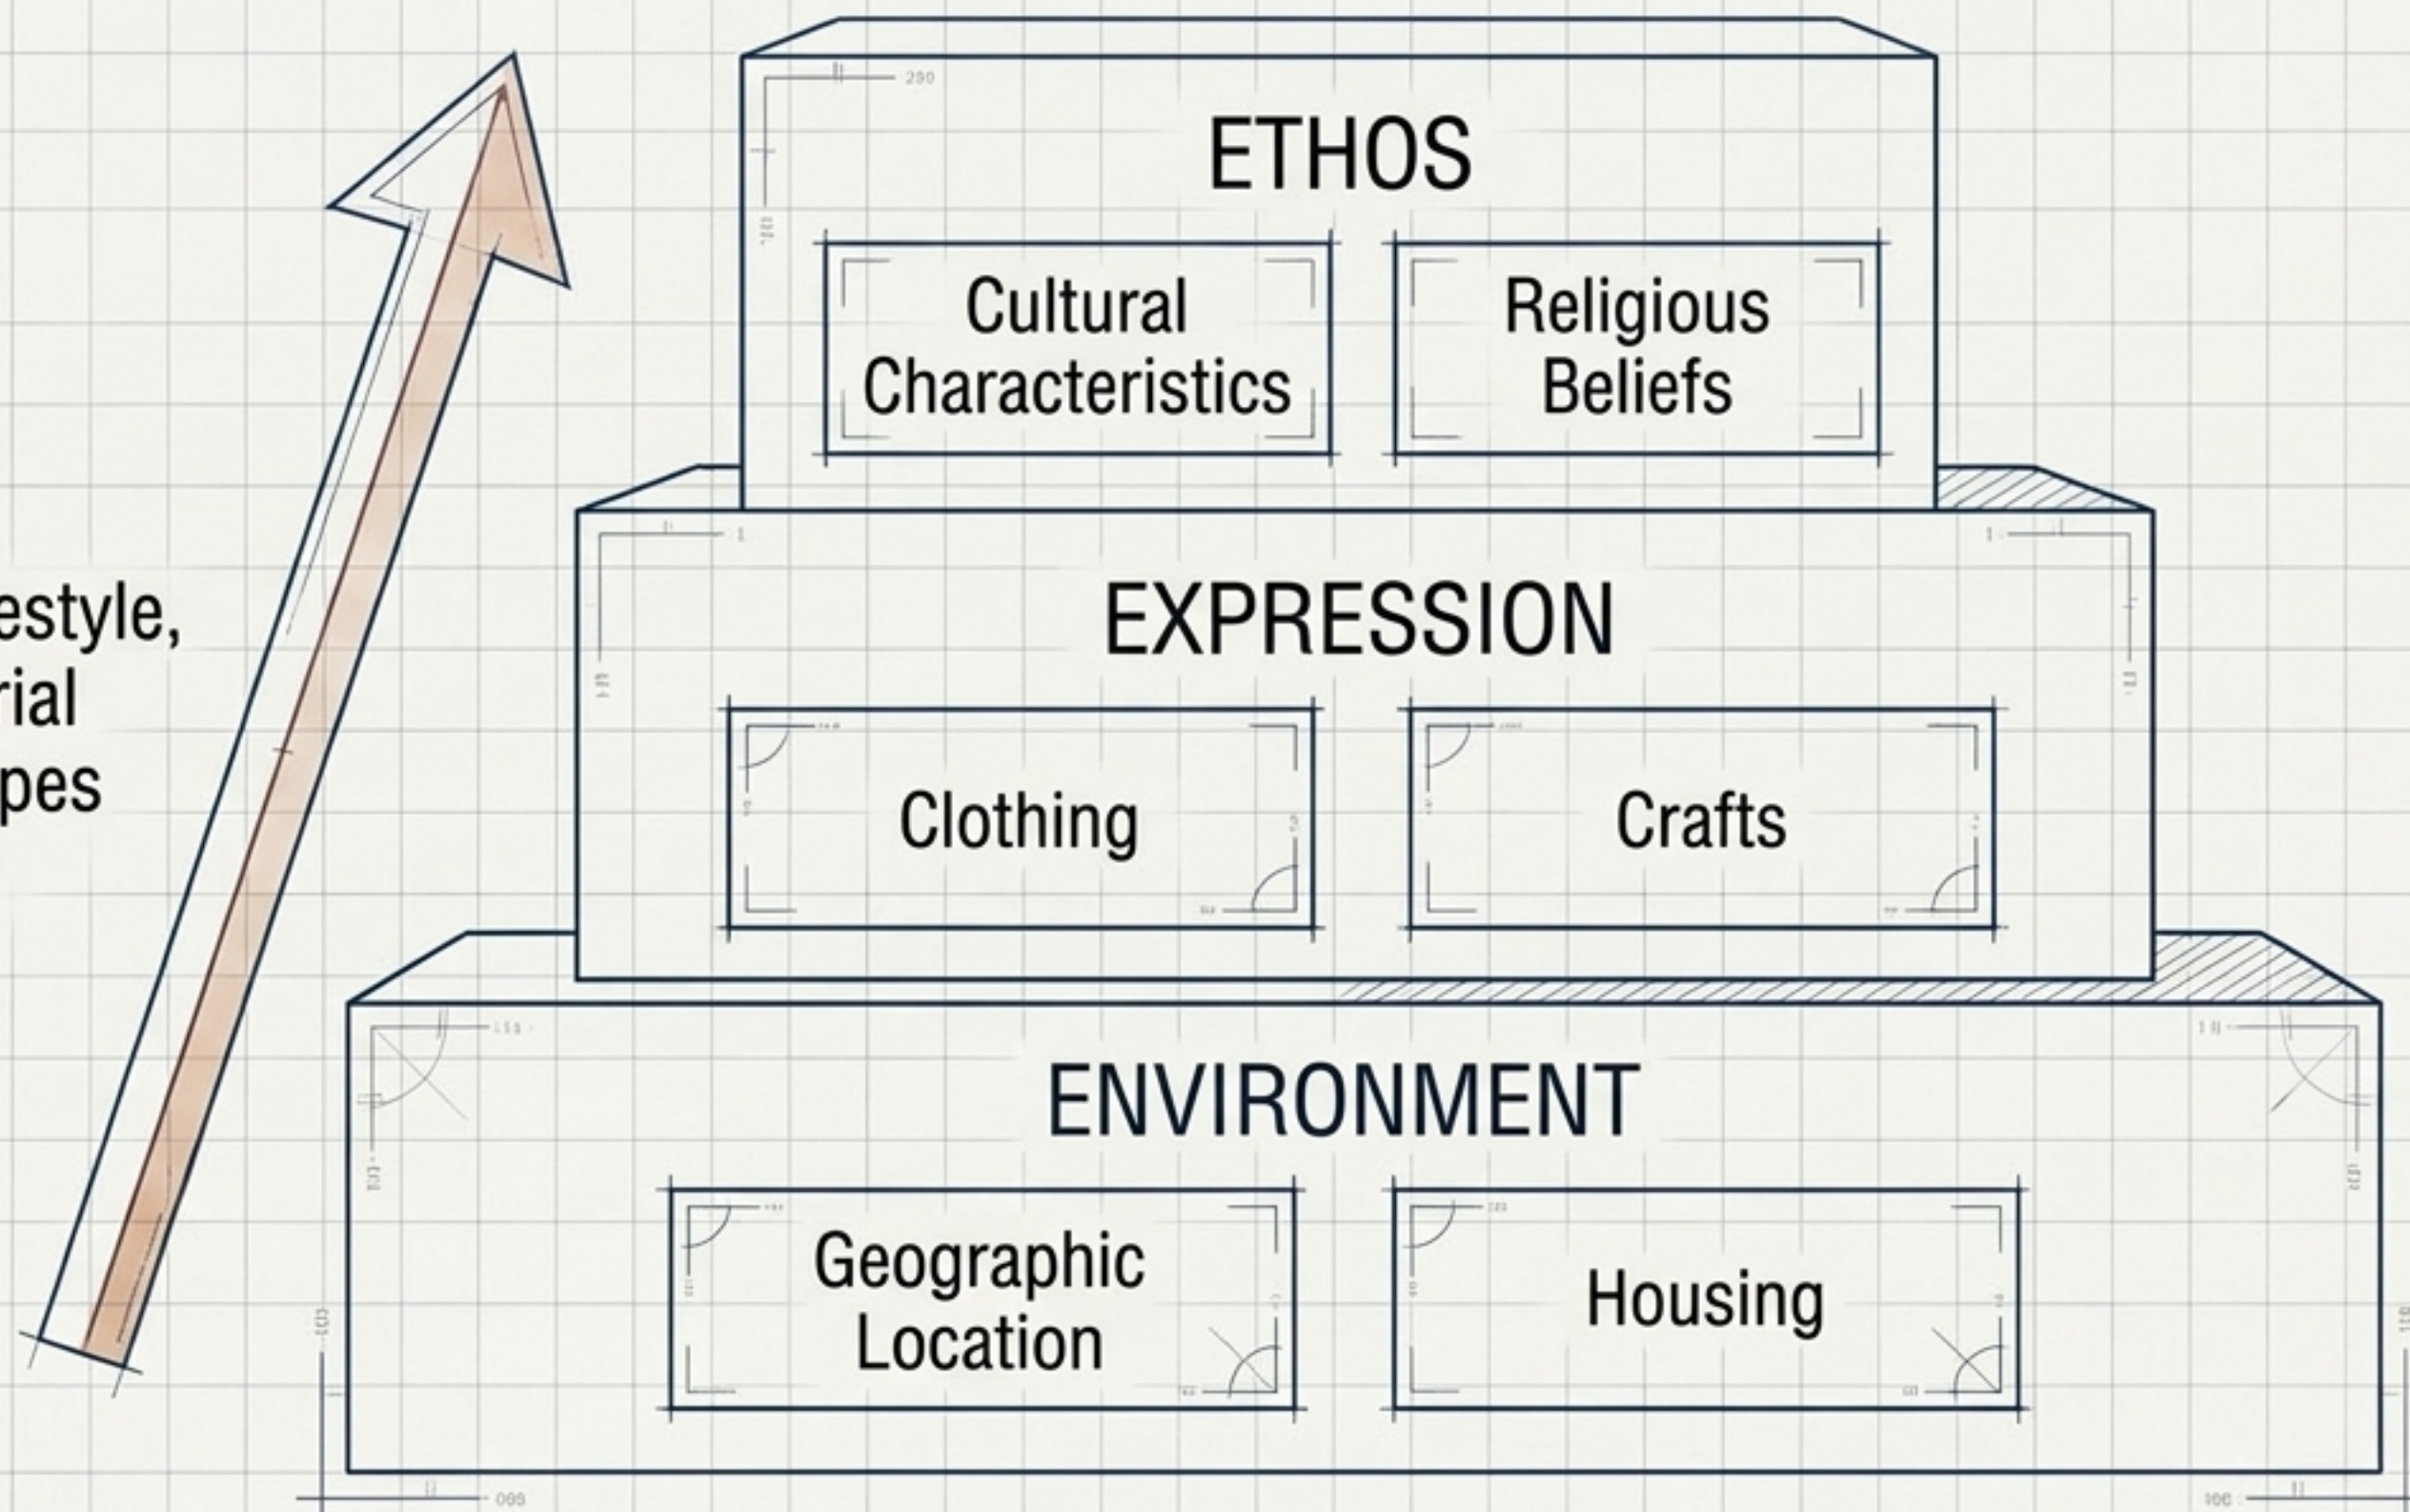

THE SUBJECT ROSTER: SELECT YOUR FOCUS

Algonquians	Apache	Blackfoot	Cherokee	Cheyenne	Chinook
Comanche	Cree	Crow	Hidatsa	Hopi	Inuit
Iroquois	Mohawk	Mojave	Muscogee	Navajo	Nez Perce
Oneida	Paiute	Pomo	Pueblo	Salish	Seminole
Seneca	Shoshone	Sioux	Wampanoag	Wichita	Zuni

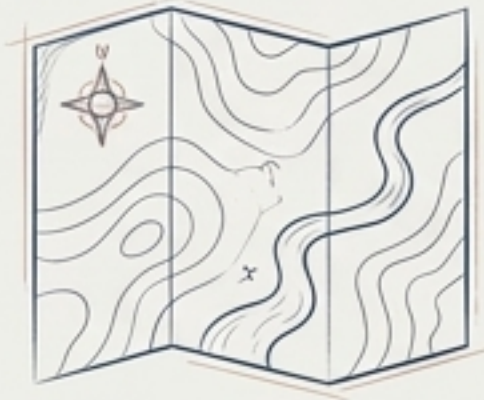

Custom Selection: If you wish to research a North American tribe not listed in this archive, you must secure teacher approval prior to drafting.

THE CIVILIZATION FRAMEWORK

Geography dictates lifestyle,
which drives material
expression and shapes
societal culture.

PILLAR I & II: ENVIRONMENT

GEOGRAPHIC LOCATION

- ☐ Visual map or regional description
- ☐ Local weather patterns
- ☐ Environmental terrain
- ☐ Geographic features that actively impacted the tribe's way of life

HOUSING

- ☐ Structural design details
- ☐ Lifestyle fit (Permanent vs. Nomadic)
- ☐ Environmental impact on building materials

Crucial Requirement: Include visual images to help the audience conceptualize the structures.

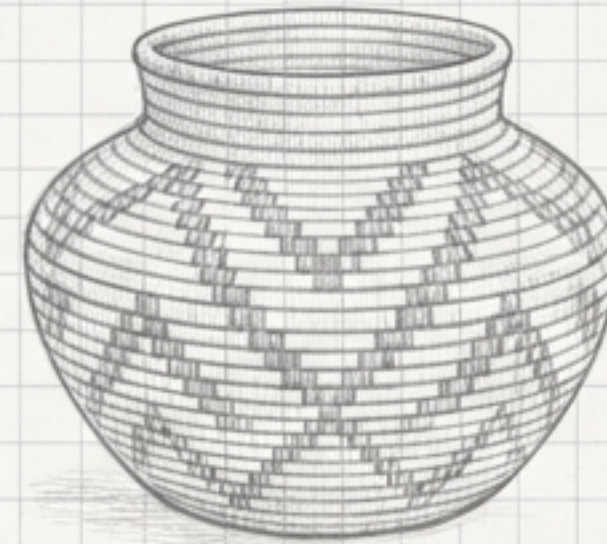

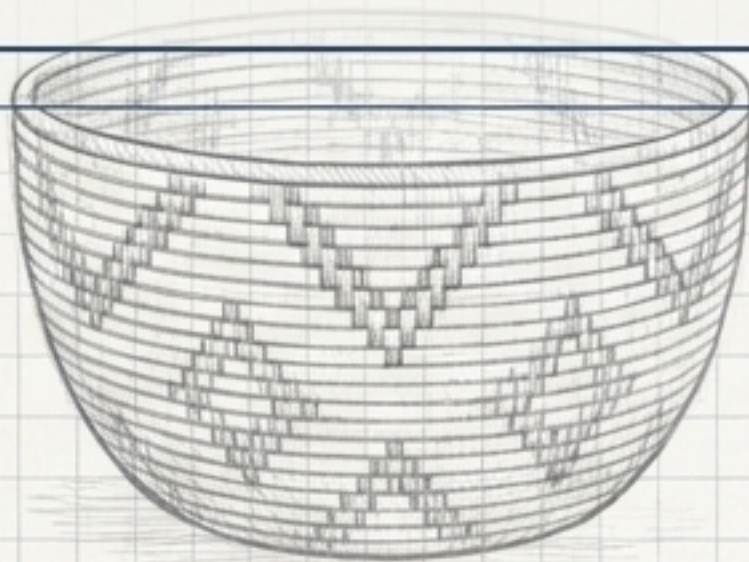

PILLAR III & IV: EXPRESSION

Clothing

Research the distinct garments worn by both men and women. Identify the specific materials used.

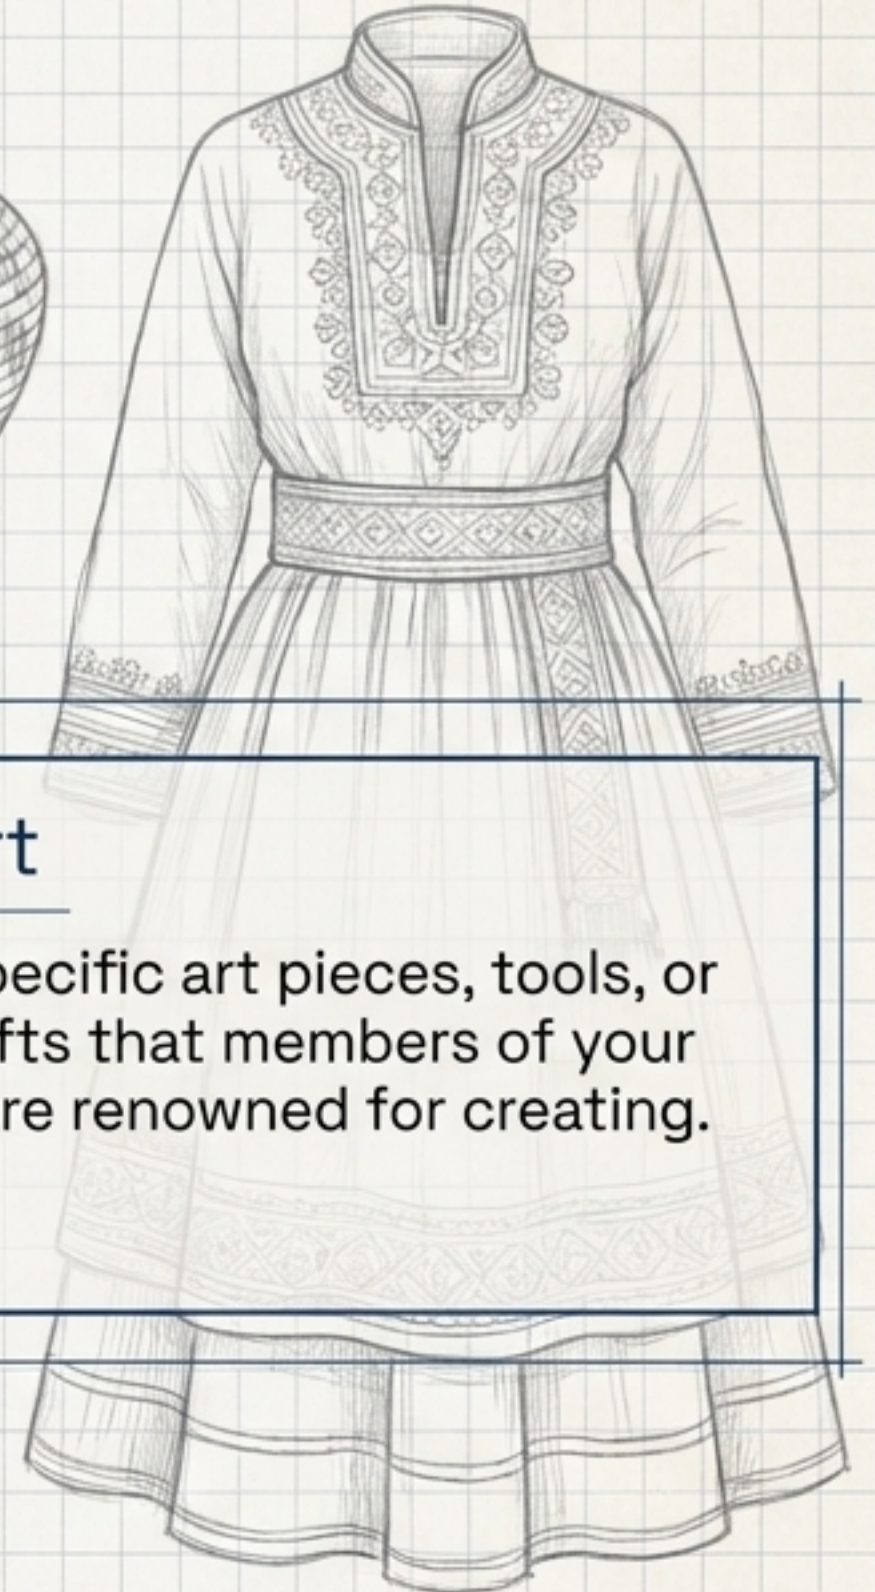

Highly Recommended: Incorporate detailed illustrations or reference images.

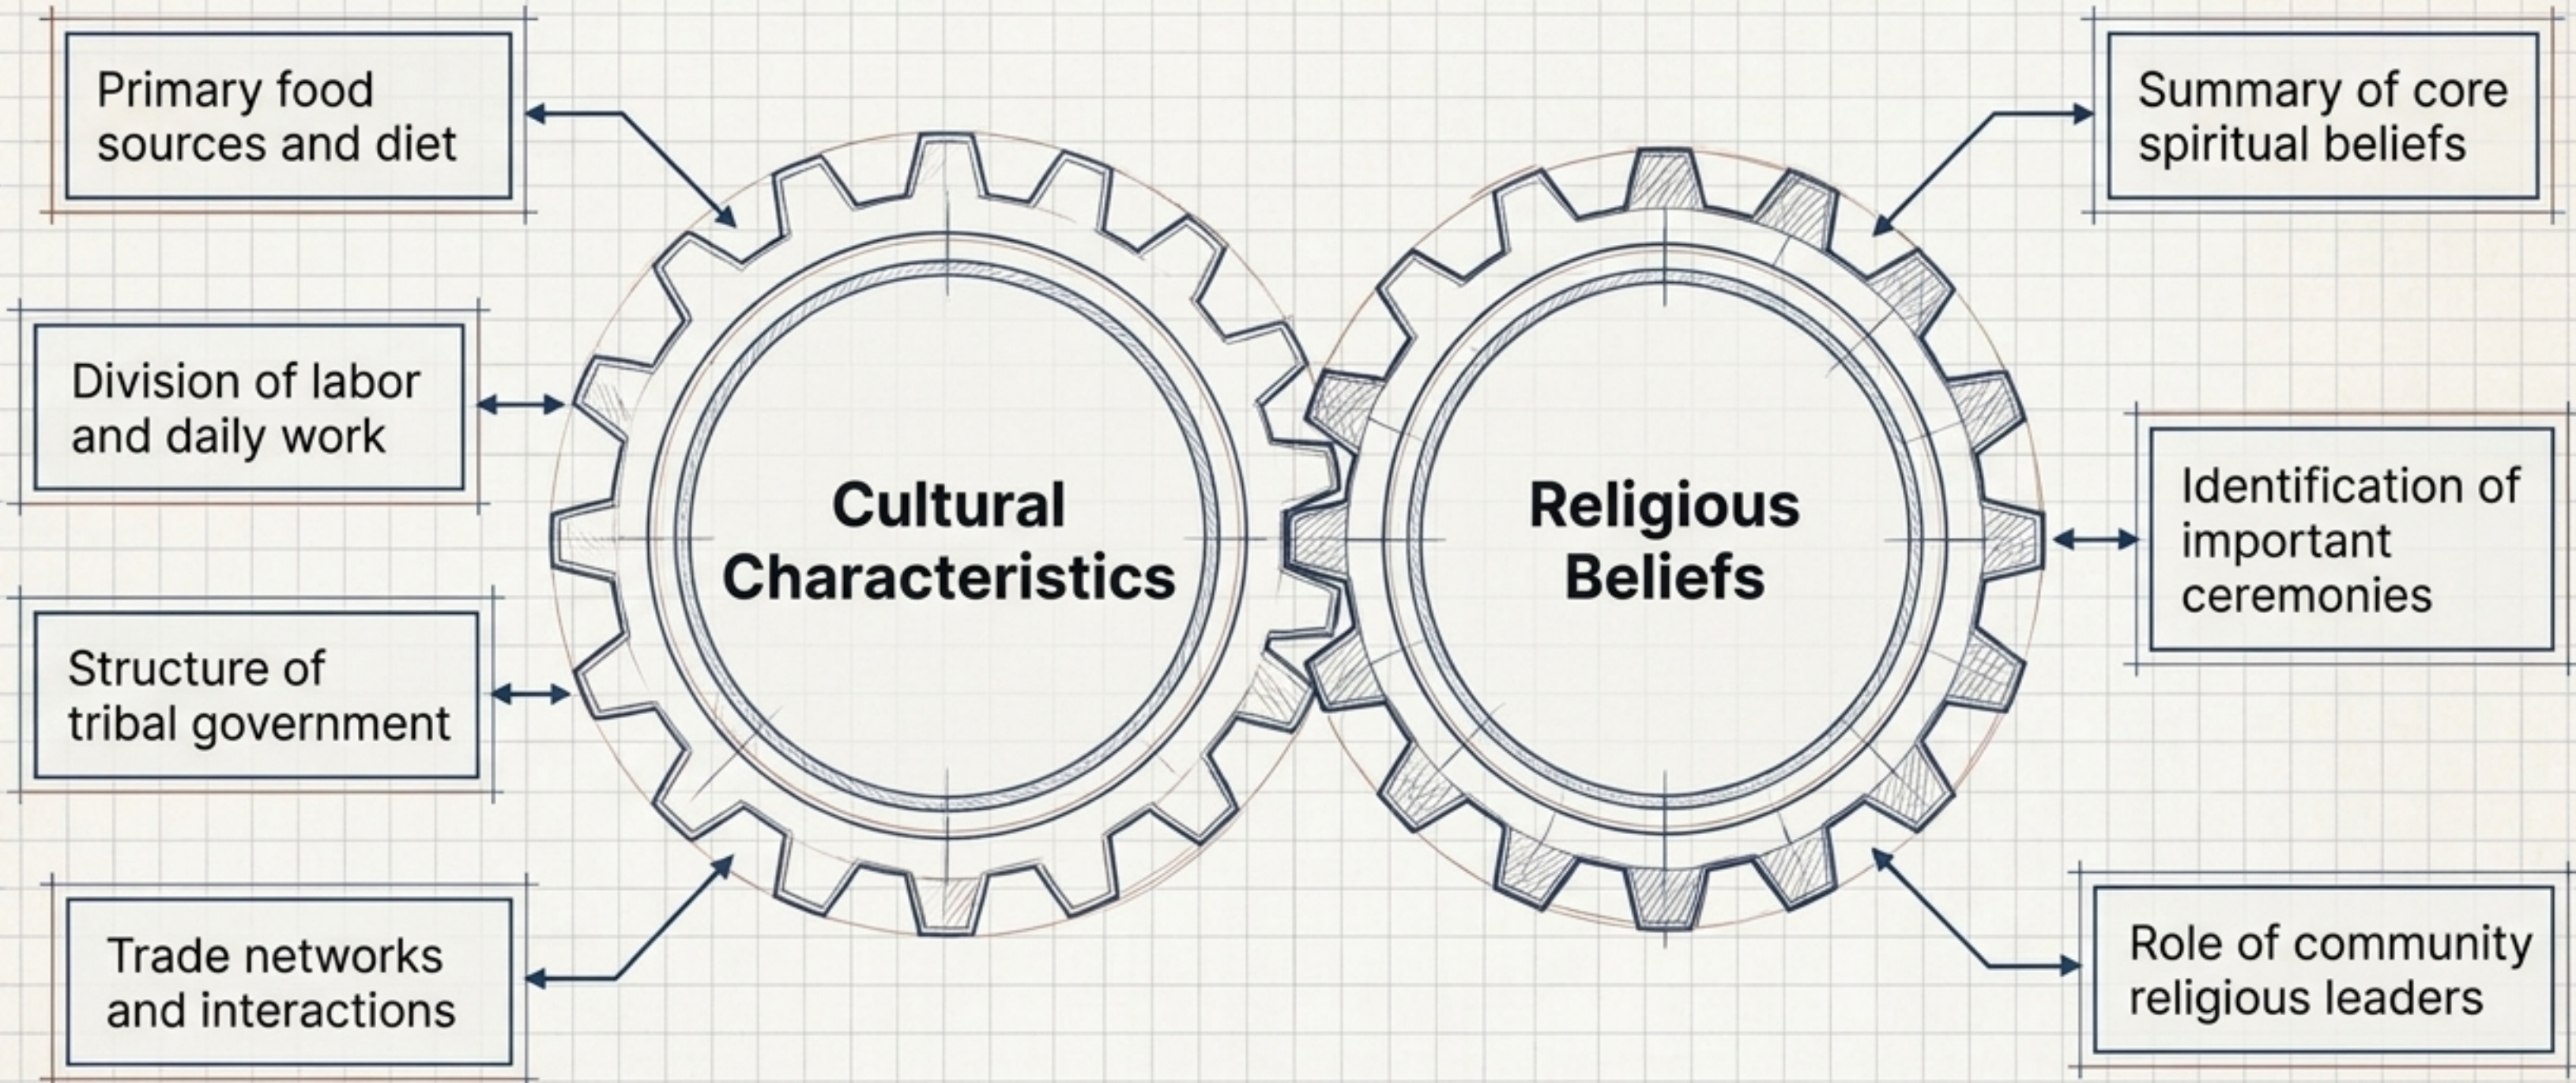

Crafts & Art

Identify the specific art pieces, tools, or traditional crafts that members of your chosen tribe are renowned for creating.

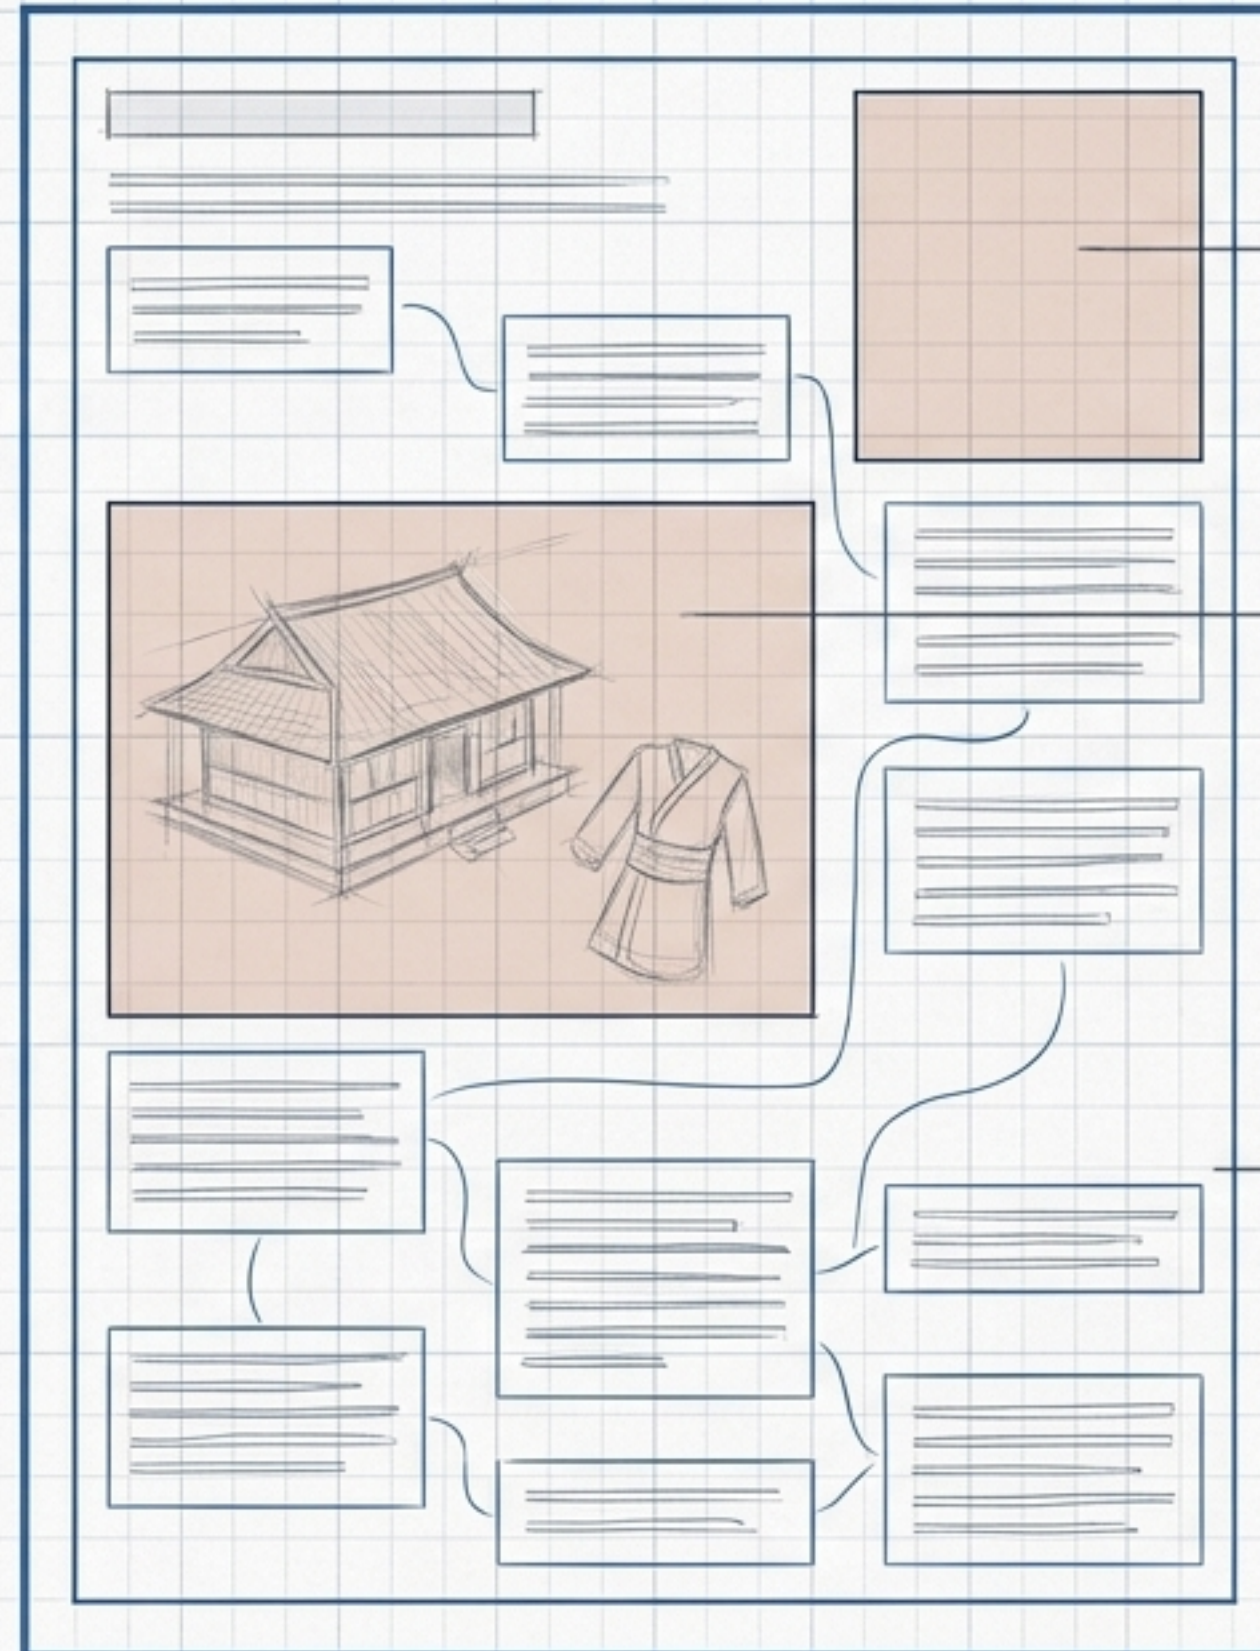

PILLAR V & VI: ETHOS

LAYOUT ARCHITECTURE: THE WIREFRAME

Notice how illustrations are not just decorations, but are tightly woven with the informational text to maximize space and clarity.

Block A: Geographic Map Integration

Block B: Hero Illustration (Housing/Clothing) - Prominent and Detailed

Block C: Text integration: Flowing natural summaries of Culture, Religion, and Crafts

The Evaluation Matrix

	Excellent (Target)	Satisfactory (Baseline)	Needs Improvement (Warning)
Required Content	All 6 pillars accurate, deep understanding.	Somewhat accurate, shows some reflection.	Inaccurate, no reflection, missing pillars.
Illustrations & Images	Created with effort, not hurried, large enough, perfectly related.	Created with some effort, shows reference to tribe.	Hasty, irrelevant, or non-existent.
Overall Appearance	Neat, clear, shows extensive brainstorming.	Not as neat as it could be, but organized.	Sloppy, disorganized, looks like it was done on the bus.

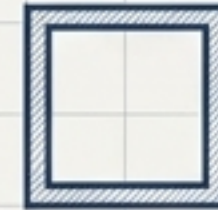

ANATOMY OF EXCELLENCE: PRE-FLIGHT CHECKLIST

THE MINDSET

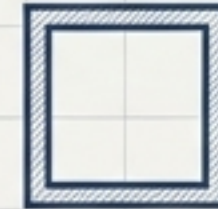

A SUCCESSFUL ONE-PAGER IS NOT A RUSHED WORKSHEET. IT IS A CAREFULLY CURATED MUSEUM EXHIBIT ON A SINGLE PAGE.

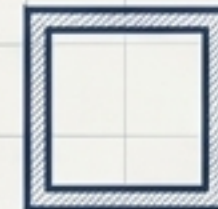

THE FINAL AUDIT

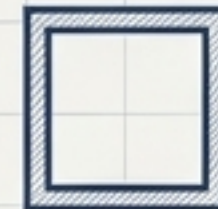

IS A SPECIFIC TRIBE SELECTED FROM THE GRID?

ARE ALL 6 FRAMEWORK PILLARS (ENVIRONMENT, EXPRESSION, ETHOS) THOROUGHLY RESEARCHED USING MULTIPLE SOURCES?

ARE ILLUSTRATIONS LARGE, DELIBERATE, AND DIRECTLY CONNECTED TO THE TEXT?

IS THE FINAL LAYOUT NEAT, ORGANIZED, AND CLEARLY BRAINSTORMED BEFORE EXECUTION?
